Academics

Examination	University	Institute	Year	CPI/%
BE Sem 7	GTU(ECE)	LDCE Ahmedabad	2022-26	6.88
HSC	CBSE	KV Rajkot	2022	90.5
SSC	CBSE	KV Rajkot	2020	78.8

PROJECTS

- AI-Integrated IDE | Python, Django, React, WebSockets, LLMs**
Developed a feature-rich web IDE with a React frontend and Django backend. Integrated OpenAI/Claude API via LangChain to provide project-wide code assistance, automated unit testing, and intelligent terminal error interpretation. Optimized frontend performance using the Monaco Editor API for a seamless VS Code-like experience.
- REAL-TIME FACE RECOGNITION ON RASPBERRY PI**
Developed and deployed a real-time face recognition system on a Raspberry Pi using Python and OpenCV. The system captures video from a camera, performs live face detection, and identifies individuals by matching them against a known database.

TECHNICAL SKILLS

- Programming & Scripting Languages:** Python, SQL , Java, Dart, MongoDB, JavaScript
- Libraries & Frameworks :** Numpy, Pandas, Matplotlib, Seaborn , Scikit-learn, OpenCV, NodeJS, Django, React
- Tools:** Jupyter, Git, Google Colab, VS Code

WORK EXPERIENCE & INTERNSHIPS

- Data Analytics & ML Intern | Infolabz (July, 2025)
 - Leveraged Python (Pandas, Scikit-learn) for predictive modeling, data visualization, and secure system integration, ensuring high scalability for real-world analytical projects.
- Data Analytics Intern | IBM CSRBOX (July, 2025)
 - Leveraged Excel and Tableau to clean data, build interactive dashboards, and present actionable insights from complex datasets.
- Software Engineering Trainee | Adani Digital Labs (Jan'2 - Feb'28, 2026)
 - Core Programming: Leveraged OOP principles and DSA to build efficient, scalable, and modular Python application.
 - Database Systems: Managed and queried data across both SQL and MongoDB for diverse storage requirements.
 - Problem Solving: Applied algorithmic best practices to optimize code performance and data handling.
- Full Stack Developer | Ywork.ai (March, 2026- present)
 - Leading the development of full-stack web applications using Python/Django and React, focusing on building scalable APIs, responsive UIs, and robust database architectures for AI-driven platforms.

ACHIEVEMENTS

- Data Science and Analytics Certificate (HP LIFE)
- Python with Machine Learning Certificate (CLOUD COMPUTING)
- Python for Data Science Certificate (INFOSYS SPRINGBOARD)
- The Data Pathway: From Learner to Data Professional Certificate (IBM SKILLSBUILD)
- Played Chess at National level representing GTU
- Gold Medal at Intra College Chess Tournament

AREA OF INTEREST

- Machine Learning
- Artificial Intelligence
- Web Development

HOBBY

- Badminton
- Chess
- Football
